## All Veterans moved back to the Domiciliary

The Martinsburg VA Medical Center is pleased to announce all Pathway to Wellness Veterans have moved back into the Domiciliary. The Domiciliary was closed on Aug. 24 during the clean up process after mold was discovered in rooms to ensure the safety of patients, visitors and staff. The residents who in the affected buildings were temporarily relocated. Each room has been updated with new air conditioning units that will increase circulation of air flow around the unit and provide easier access for maintenance and repair. Drywall has been replaced and all rooms have been freshly painted. Veteran Steve Crum is looking forward to moving back to D-Pod. “The moving did not hinder my treatment at all. We are all here for the purpose of getting better and having the transportation to and from the hotel made it really easy for me to still go to all of my classes and appointments,” he said. Welcome back, Pathways to Wellness Residents! To read more about Operation Martinsburg In/Out, click [here](#). To finish reading about Crum and his journey, please click [here](#).
