- Non-formulary drug reviews
- Antimicrobial stewardship
- Member of Cardiac Arrest Team
- Member of Rapid Response Team
- ACLS and BCLS Instructor

What you like most about working for the Martinsburg VAMC:

I love working with the Veteran population. They are the most appreciative patient population I have encountered in my career. The respect I receive from my physician group is amazing. Our interdisciplinary treatment team ensures that all health care professionals are integral parts of the treatment team. I am also fond of the prescriptive authority that I am granted.
