The Psychosocial Rehabilitation and Recovery Center consists of psychologists, counselors and nurses dedicated to assisting Veterans in their personal recovery program.
The focus is Mental Health Recovery

PRRC offers Veterans opportunities for change and recovery in many areas of their lives. This comprehensive program addresses aspects in:

- Symptom Management
- Social Skills
- Relationships
- Interpersonal Fulfillment
- Life Skills
- Chronic Pain
- Addiction
- Anger Management
- Spirituality/Bereavement
- Health & Wellness

Services are available as long as needed, with successful discharge from the program decided by both the Veteran and the team.

What is Mental Health Recovery?

“Mental health recovery is a journey of healing and transformation enabling a person with mental health problems to live a meaningful life in a community of his or her choice while striving to achieve his or her full potential.”

SAMHSA 2006

Who Can Enroll in PRRC?

Veterans with a primary diagnosis of a serious and persistent mental illness, such as Major Depression, Bipolar Disorder, Schizophrenia, or severe Post Traumatic Stress Disorder.

Veterans who are willing to participate in their own physical and mental health recovery.
